Bureau of Criminal Investigation.

The "Rogues' Gallery" now contains 12,786 photographs, 7,786 of which are photographs with Bertillon measurements, a system adopted for the use of this department during the past year. In accordance with an act passed by the Legislature, March 28, 1899 (chapter 203, sections 1 and 2), we are allowed photographs, with Bertillon measurements, of all convicts now in the several prisons in this State, and of those who have been confined there and who are measured under that system and photographs taken, — a number of which have already been added to our Bertillon cabinet. This, together with the adoption of the system by this department, is and will continue to be of great assistance in the identification of criminals. The records of 703 criminals have been added to the records kept in this Bureau, which now contains a total of 23,928. This Bureau has issued 384 prison reports of discharged convicts, containing the full records, description, distinguishing marks, etc., of 120 convicts who were discharged during the year, and whose records were considered of sufficient importance to preserve. Other police departments were furnished with 156 copies of these reports. The number of cases reported to this office, which have been investigated, during the year are 11,543, 8,961 of which are recorded on the assignment books kept for this purpose, and reports made on these cases are filed away for future reference. Since the issue of the last annual report, this Bureau has adopted a new system of retaining copies of the letters and telegrams sent out, which aggregate about 1,700 yearly. Letters and telegrams are now filed with the numbered reports to which they refer, so that all the papers pertaining to a case can be found in the same envelope, thus simplifying the matters when information is desired on any case. A system of indexing has also been adopted by this Bureau, for the use of the department, which, when completed, will contain a list of records, histories, photographs, dates of

arrests, etc., of about 5,000 people; there are also "histories and press clippings," now numbering 5,000, kept by this Bureau, in envelope form, for police reference.

The statistics of the work of this branch of the service are included in the statements of the general work of the department; but as the duties are of a special character, the following statement will be of interest:—

POLICE SIGNAL SERVICE.

In compliance with chapter 454 of the Acts of 1894 and chapter 249 of the Acts of 1898, underground cable has been laid on that portion of Division 5, south of Dover Street, completing that station under ground, so that now all of the city proper north of Northampton Street has been equipped with underground construction.

On account of the growth of population in the outlying districts it has become necessary to install more signal boxes. Four have been placed on Division 11, 12 on Division 9 and 1 on Division 7, making 439 boxes in service.

A second-hand one-horse caravan was purchased for underground work.

For the good of the service it became necessary to remove all cable belonging to this department from the poles on the New York, New Haven and Hartford Railroad on stations 9 and 11. Three miles of cable was purchased for this purpose. Three miles of cable was purchased this winter for storm emergency.

There are in use in the signal service 23 horses, 18 patrol wagons and 12 pungs.

During the year the wagons made 23,091 runs, covering an aggregate distance of 20,119 miles. There were 20,061 prisoners conveyed to the station houses; 1,116 runs were made to take injured and insane persons to station houses, the hospitals or their homes; and 639 runs were made to take lost children to station houses. There were 561 runs to fires, and 147 runs for liquor seizures. There were 439 signal boxes in use, arranged on 60 circuits. There were 852,661 telephone messages and 2,624,523 "on-duty" calls sent over the lines. (See Table XXII.)

CONCLUSION.

The Board of Police has during the past year placed additional police officers in the sub-stations in Roslindale, Mattapan, Milton Lower Mills and Neponset, which action it is hoped will afford better police protection and give the citizens of these districts a feeling of greater security. It is gratifying to be able to announce a decrease in the number of crimes of a serious nature since the last annual report. The Board also takes this occasion to commend the efficient and faithful work performed by the officers during the past year.

Respectfully submitted,

ROBERT F. CLARK,
C. P. CURTIS, JR.,
HARRY F. ADAMS,

Board of Police.
